Dear Municipal Official:

Keystone is continuing to improve address mapping for faster tax distribution to you. We are proud to announce the latest upgrade to Keystone's Address Master Geo Mapping system.

In support of the mapping system, whenever a **new housing plan or development opens in your community**, please send the **exact house numbers and street names** to Keystone's Client Services Division and Keystone will take it from there. Adding new taxpayers to your rolls is essential to maximizing your revenues.

If you have any questions, contact Client Services at 855-697-3514.
